REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "TWCC Rule 133.304, specifically states 'the explanation of benefits shall include the correct payment exception codes required by the Commission's instructions' and 'the explanation of benefits may be printed on the insurance carrier's letterhead but must include all language required by the Commission.' The service in question was preauthorized by the carrier for an outpatient procedure to be performed at Vista Medical Center Hospital."

Amount in Dispute: \$19,428.69

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "It is the Carrier's position to stand on AccuMed recommendations \$10,413.58 which was paid on 03/25/2004. No additional recommendation is due based on TWCC medical fee guidelines/rules."

Response Submitted by: ESIS, Inc., PO Box 4574, Houston, TX 77210

SUMMARY OF FINDINGS

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
September 30, 2004	Outpatient Hospital Services	\$19,428.69	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.1, effective May 16, 2002, 27 *Texas Register* 4047, requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers' Compensation Act, §413.011 until such period that

specific fee guidelines are established by the commission.”

3. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
4. This request for medical fee dispute resolution was received by the Division on September 30, 2004. Pursuant to 28 Texas Administrative Code §133.307(g)(3), effective January 1, 2003, 27 *Texas Register* 12282, applicable to disputes filed on or after January 1, 2003, the Division notified the requestor on October 6, 2004 to send additional documentation relevant to the fee dispute as set forth in the rule.
5. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - U – Unnecessary medical treatment guidelines.
 - C – Negotiated contract.

Findings

1. The insurance carrier reduced or denied disputed services with reason code C – “Negotiated Contract.” Review of the submitted information finds insufficient documentation to support that the disputed services are subject to a contractual agreement between the parties to this dispute. The above denial/reduction reason is not supported. The disputed services will therefore be reviewed for payment in accordance with applicable Division rules and fee guidelines.
2. The carrier denied services using the denial code U “Unnecessary Medical Treatment Guidelines.” The respondent did not submit any documentation to support the position that the disputed service was unnecessary medical treatment. The Division therefore concludes that this denial reason is not supported. The services will be reviewed per applicable statutes and Division rules.
3. 28 Texas Administrative Code §133.307(g)(3)(B), effective January 1, 2003, 27 *Texas Register* 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including “a copy of any pertinent medical records.” Review of the submitted documentation finds that the requestor has not provided copies of all medical records pertinent to the services in dispute. Although the requestor did submit a copy of the operative report, the requestor did not submit a copy of the anesthesia record, post-operative care record, or other pertinent medical records sufficient to support the services in dispute. The Division concludes that the requestor has not met the requirements of §133.307(g)(3)(B).
4. 28 Texas Administrative Code §133.307(g)(3)(D), effective January 1, 2003, 27 *Texas Register* 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to provide “documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement.” Review of the submitted documentation finds that:
 - The requestor's position statement asserts that “TWCC Rule 133.304, specifically states ‘the explanation of benefits shall include the correct payment exception codes required by the Commission’s instructions’ and ‘the explanation of benefits may be printed on the insurance carrier’s letterhead but must include all language required by the Commission.’ The service in question was preauthorized by the carrier for an outpatient procedure to be performed at Vista Medical Center Hospital.”
 - The requestor did not provide documentation to demonstrate how it determined its usual and customary charges for the disputed services.
 - Documentation of the comparison of charges to other carriers was not presented for review.
 - Documentation of the amount of reimbursement received for these same or similar services was not presented for review.
 - The Division has previously found that “hospital charges are not a valid indicator of a hospital's costs of providing services nor of what is being paid by other payors,” as stated in the adoption preamble to the Division's former *Acute Care Inpatient Hospital Fee Guideline*, 22 *Texas Register* 6276. It further states that “Alternative methods of reimbursement were considered... and rejected because they use hospital charges as their basis and allow the hospitals to affect their reimbursement by inflating their charges...” 22 *Texas Register* 6268-6269. Therefore, the use of a hospital's “usual and customary” charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
 - The requestor has provided select exhibit pages from an alleged managed care contract; however, a copy of the contract referenced in the position statement was not presented for review with this dispute.
 - Review of the exhibit pages submitted by the requestor finds a schedule of charges, labeled exhibit “A”, dated 04/23/92, which states that “OUTPATIENT SERVICES: 101/401 PAY 70% OF BILLED CHARGES.”

- The requestor submitted a letter of clarification dated July 30, 1992 indicating a change in reimbursement to the above referenced contract, stating in part that “services rendered to eligible Beneficiaries will be considered at 80% of the usual and reasonable charge which is equal to the lesser of the actual charges billed by HCP; OR the eightieth (80th) percentile for charges for such services as set forth in the current Medical Data Research Database.”
- The requestor submitted a fee schedule page, labeled exhibit A, dated effective August 1, 1992 which states, in part, that the provider shall receive “an amount equal to eighty percent (80%) of the Usual and Reasonable Charge for those Covered Services. For all purposes hereunder, the Usual and Reasonable Charge for such services shall be equal to the lesser of: (i) the actual charges billed by HCP for such services; or (ii) the eightieth (80th) percentile for charges for such services as set forth in the current Medical Data Research database.”
- No data or information was submitted from the Medical Data Research database to support the requested reimbursement.
- No documentation was presented by the requestor to support that the referenced contract was in effect at the time of the disputed services.
- The requestor’s position statement further asserts that “amounts paid to healthcare providers by third party payers are relevant to determining fair and reasonable workers’ compensation reimbursement. Further, TWCC stated specifically that managed care contracts are fulfill the requirements of Texas Labor Code Section 413.011 as they are ‘relevant to what fair and reasonable reimbursement is,’ they are relevant to achieving cost control,’ they are relevant to ensuring access to quality care,’ and they are ‘highly reliable.’ See 22 Tex. Reg. 6272. Finally, managed care contracts were determined by the TWCC to be the best indication of a market price voluntarily negotiated for medical services.”
- While managed care contracts are relevant to determining a fair and reasonable reimbursement, the Division has previously found that a reimbursement methodology based upon payment of a percentage of a hospital’s billed charges does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the adoption preamble to the Division’s former *Acute Care Inpatient Hospital Fee Guideline*, which states at 22 *Texas Register* 6276 that:

“A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources.”

Therefore, a reimbursement amount that is calculated based upon a percentage of a hospital’s billed charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
- In support of the requested reimbursement, the requestor submitted redacted explanations of benefits, and selected portions of EOBs, from various sample insurance carriers. However, the requestor did not discuss or explain how the sample EOBs support the requestor’s position that additional payment is due. Review of the submitted documentation finds that the requestor did not establish that the sample EOBs are for services that are substantially similar to the services in dispute. The carriers’ reimbursement methodologies are not described on the EOBs. Nor did the requestor explain or discuss the sample carriers’ methodologies or how the payment amount was determined for each sample EOB. The requestor did not discuss whether such payment was typical for such services or for the services in dispute.
- The requestor did not submit documentation to support that payment of the amount sought is a fair and reasonable rate of reimbursement for the services in this dispute.
- The requestor did not support that the requested alternative reimbursement methodology would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under

Division rules at 28 Texas Administrative Code §133.307. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
